

Thank You Investors

Thank you to the individuals, businesses, and friends of the Foundation for investing in the AgForestry Leadership Program and helping to ensure that the natural resource industries of Washington State are, and will continue to be, served by strong, dedicated and effective leaders.

Investors share the vision that people are the most important resource. Over 700 investors proudly fund and collectively own the Leadership Program. Developing leaders is an essential investment in human capital for our state. Our investors understand the power of people working together to accomplish effective results.

A high percentage of our investors are not one-time givers, but continue to support the program year after year. Their vision is that creating ongoing leadership is continuous. Because trained leadership is perpetual, the results become lasting as depth and knowledge grow.

Leadership Class 36

Leadership Class 37

Effective Leaders. Today and Tomorrow.

AgForestry Leadership is a development organization dedicated to advancing the natural resource industries through enhanced understanding, education and empowerment of future leaders. The Foundation has been serving as Washington's premier service provider of leadership training and networking since 1978.

Stay informed on AgForestry Leadership events at www.agforestry.org/events

The AgForestry Leadership Difference

Ongoing support assures the vital work of proficient leaders continues. To date, over 1,000 participants have graduated from the Leadership Program and are serving in key positions in industry, communities, associations, government, public service, and business.

WHAT GRADUATES ARE SAYING

“As a graduate of the program myself, it was important to continue the investment in AgForestry Leadership by recommending the program to my son, knowing how the skills and experiences the program provides will benefit not only him but also our family-owned businesses for the generations to come.”

- Bob Brink, Leadership Class 19 • Dan Brink, Leadership Class 35

The AgForestry Leadership Program will undoubtedly help us become more effective leaders in our state, and position us to make an impact on the natural resource industries we serve.

- Leadership Class 35

“AgForestry was a remarkable experience that challenged me to become both a leader in my profession and in my community. It pushed me to take on opportunities that were definitely outside my comfort zone. I look forward to other opportunities both within the company and in my community to persistently give back what I’ve learned.”

- Nancy Peckman, Leadership Class 20

Effective Leaders. Today and Tomorrow.

Nominate a leader or learn more about applying for the leadership program at www.agforestry.org/leadership-programs
